IN RECOGNITION OF DR. WILLIAM B. DeLAUDER'S RETIREMENT

● Mr. CARPER. Mr. President, I rise today in recognition of Dr. William B. DeLauder upon his retirement from Delaware State University. He has served as president of the university for more than 16 years. His leadership over that span of time has lifted this small, historically black land grant college of the 21st century and won him the respect of faculty and students alike, along with the gratitude of our entire State. He has been, and remains, a trusted friend and advisor to me both in my previous role as Governor of Delaware and now as our State's junior United States Senator.

One of Dr. DeLauder's most noteworthy achievements has been the transition of Delaware State College to Delaware State University. I had the privilege of formalizing this transition by signing into law the official name change that signified this accomplishment when I was Governor in 1993 to more accurately reflect the depth and quality of the University's academic offerings. The changes have been profound.

Under President DeLauder the university has undergone a remarkable transformation in academics, student life, fund raising, and in appearance, Alumni returning to visit their alma

mater today after an absence of many years are amazed at the appearance of its campus. A beautiful pedestrian campus has replaced the old network of streets that for years divided the old campus into an unattractive series of squares and rectangles. An array of new buildings have been constructed including a modern library, a cutting-edge science center, a home for the School of Management, and a new administrative building. On-campus housing capacity for students has roughly doubled, too. With all of that completed, Dr. DeLauder has begun one final major project—the building of a modern, new stadium and a health and fitness complex.

Those may be the most visible signs of change, but they tell only part of the story. During Dr. DeLauder's 16 year tenure, the university also expanded its academic programs by adding new graduate programs in biology, chemistry, and physics, as well as new undergraduate programs in airway science, computer science and mass communications. The university also increased its number of faculty with doctorates from 44 to 72 percent. Admission standards have been raised, as well. In addition, DSU became the first higher education institution in Delaware to receive national accreditation for its teacher education program during his presidency.

During his tenure, President DeLauder also founded a board of visitors that consists of State government leaders and corporate executives. The board's purpose is to provide support and assistance to the fund raising and development goals of the university. In 1994, he led Delaware State University on its first major fund raising effort. The campaign raised more than \$10 million for the enhancement of academic programs, faculty development, and student financial aid.

Dr. DeLauder's accomplishments have been recognized through numerous honors and awards. For example, in March 1994, he received the Thurgood Marshall Award for outstanding contributions to the higher education of African-Americans. In 1995, he received the prestigious leadership award in Delaware presented by the National Conference of Christians and Jews. In November 2001, he was inducted into the Delaware State University Sports Hall of Fame for his support of the school's student-athletes and teams. That same month, he received the prestigious Buchanan award by the Central Delaware Chamber of Commerce. In June of last year, President DeLauder was appointed chairman of the United Way of Delaware's Board of Directors.

Dr. DeLauder earned his bachelor of science degree from Morgan State University and a doctorate in physical chemistry from Wayne State University. He conducted post-doctoral research in physical biochemistry at the Centre of Biophysical Molecular du C.N.R.S., Orleans-LaSource, France. Bill is married to a delightful woman,

the former Vermell Faulk. She has served as an invaluable partner and University First Lady during this time of remarkable change at Delaware State. The DeLauders are blessed with two children, William Jr. and Ellen, and three grandchildren.

Dr. DeLauder is a humble and selfless man who takes pride in his work but is always quick to share the credit for Delaware State College's successes with others. Through his tireless efforts, he has made a profound difference in the lives of thousands of students and enhanced the quality of life for an entire state. Upon his retirement, he will leave behind a legacy of commitment to public service for both his children and grandchildren and for the generations that will follow. I thank him for the warm friendship that we share, and I congratulate him on a truly remarkable and distinguished career. I wish him, his wife Vermell and their family only the very best in all that lies ahead for each of them.●

2003 TRADE POLICY AGENDA AND THE 2002 ANNUAL REPORT ON THE TRADE AGREEMENTS PROGRAM—PM 19

The PRESIDING OFFICER laid before the Senate the following message from the President of the United States, together with an accompanying report; which was referred to the Committee on Finance:

To the Congress of the United States:

In accordance with section 163 of the Trade Act of 1974, as amended (19 U.S.C. 2213), I transmit herewith the 2003 Trade Policy Agenda and 2002 Annual Report on the Trade Agreements Program as prepared by my Administration.

GEORGE W. BUSH.
THE WHITE HOUSE, *February 28, 2003.*

MEASURE PLACED ON THE CALENDAR

The following bill was read the second time, and placed on the calendar:

H.R. 534. An act to amend title 18, United States Code, to prohibit human cloning.

EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with accompanying papers, reports, and documents, which were referred as indicated:

EC-1322. A communication from the Deputy Chief, Policy and Rules Division, Office of Engineering and Technology, Federal Communications Commission, transmitting, pursuant to law, the report of a rule entitled "Revisions to Broadcast Auxiliary Service Rules in Part 74 and Conforming Technical Rules for Broadcast Auxiliary Service, Cable Television Relay Service and Fixed Services in Parts 74, 78, and 101 of the Commission's Rules" received on February 24, 2003; to the Committee on Commerce, Science, and Transportation.
